Our lead designer, Chris Hagest worked with Kawasaki during the development of the 750 hulls, and based our line up of performance handling components on his testing and work there. With the goal of elevating your ride, our parts for the Kawasaki 750 SX, SXI, and SXI Pro are designed to increase the stability, reduce nose bounce, get more rear grip

I have rode both, there was a little difference, but they still felt like the same basic ski. If you find a decent sxi, get it.
