This variant of the problem has only been seen in GroupWise 6.5. cause. The Duplicate User in the Proxy Access list is created when a GW 5.2.x client is used to view the Proxy Access list (Tools | Security | Proxy Access) against a GW 5.5.x mailbox. There is a display problem created when a GroupWise 5.2 client access a GroupWise 5.5 account and modifies the Proxy Access list. Once this is done the GroupWise 5.5 client views the Proxy Access list incorrectly.

Duplicate User in the Proxy Access list. - support.novell.com
