## **World**

This report includes the World Development Indicators, which provide selected social and economic indicators for more than 100 countries. Despite continued economic growth through 1987 and into 1988, two problems have characterized recent trends: unsustainable economic imbalances within and among industrial countries, and highly uneven economic growth among developing countries.

### **Knowledge for Development**

The World Development Report 2019 studies how the nature of work is changing as a result of advances in technology today. Fears that robots will take away jobs from people have dominated the discussion over the future of work, but the World Development Report 2019 finds that on balance this appears to be unfounded.
